The "Britannia" Winner on Saturday.

LONDON, June 14.—The Britannia and

Valkyrie were measured at Dover yester-

day, when it was discovered that the dif-

ference in rating between them had been

overestimated and that the Britannia was

the winner of Saturday's match by three

seconds. The Britannia's rating is now 151

and the Valkyrie's 140.67.

The Women's Wedding Present to
Princess May—Provincial Accounts
Arbitration Meets.

Arrival of the "Miwera's" Mails—
Trade Prospects with Aus-
tralian Colonies.

(From our own Correspondent.)

OTTAWA, June 14.—Green goods circulars
are again being poured into the country
through the mails. It will be well for
Canadians to have nothing to do with the
business as the Dominion law is very strict.

Mr. Douglas Cameron, assistant account-
ant in the House of Commons and for several
years secretary to the Conservative
whip, and a son of the late Sir Matthew
Crooks Cameron, was married this evening
to Miss Edwards, eldest daughter of Mr. J.
Edwards.

Mr. Johnson, Dominion statistician, has
received several inquiries from Australia on
trade matters. Winchcomb, Carson & Co.,
produce salesmen, Sydney, ask for the
names of two or three reliable firms in the
leading cities of Canada to act as selling
brokers for the disposal of furskins, tanned
and untanned, sheepskins, basils, etc. An-
other firm, Edward Hordern & Co., of
Sydney, want a list of drygoods manufac-
turers in the Dominion. Inquiries of this
kind show that interest in the new route is
being rapidly developed.

The Countess of Derby writes to the
papers as follows: "Sir,—Would you
kindly allow the following to appear in your
paper. At the first meeting of the Ladies'
Committee at Ottawa, it was proposed that
the present to His Royal Highness the
Duke of York and to the Princess May,
from the Women of Canada, should be a
sleigh with robes, silver bells, and harness
complete. This suggestion, however, met
with disapproval from many quarters. We
then agreed to ask for other suggestions
from committees formed for the purpose of
raising money in all the Provinces. Hav-
ing, however, obtained their opinions, which
differ widely from one another, the diffi-
culty of making a choice still remained.
We, therefore, decided to lay the matter
before His Royal Highness the Duke of
York, asking him to let us know what
would afford him and the Princess the
greatest pleasure in receiving. I accord-
ingly wrote on Monday, sending a list of
the various suggestions, at the same time
requesting him to cable to me what kind of
a present he and the Princess would prefer.
In this way we hope that we shall be able
to obtain a decision most satisfactory under
the circumstances.

The Miwera's mails, which left Van-
couver on Friday, were delivered to-day,
after an exceptionally quick run.
Many militia officers, whose corps are not
going to camp, have asked permission to
be attached to regiments ordered out for
training.

The Executive of the Dominion Rifle
Association met to-day and practically ar-
ranged the programme for the annual
matches in August. The gift of another
valuable cup is reported.

The Provincial accounts arbitrators com-
menced taking evidence to-day. A. M.
Ross, formerly provincial treasurer of Onta-
rio, was on the stand.

Fishing Inside the Limit.

SIDNEY, June 14.—Captain E. Brenton's
United States schooner Louis H. Giles was
seized off White point, Cape North, by the
Canadian cutter Vigilant, on a charge of
fishing inside the three-mile limit.

Railway Conductor Killed.

WINDSOR, June 14.—Grand Trunk Rail-
way Conductor Turnbull, of this place, was
run over by a yard engine here this morn-
ing and fatally injured.

Pilgrimage to St. Anne.

QUEBEC, June 14.—A large pilgrimage,
numbering between 700 and 800 people from
St. Hyacinthe, visited the shrine at St.
Anne de Beaupre to-day. A cripple for
many years is reported to have left his
crutches at the shrine.

Imperial Commander at Halifax.

HALIFAX, June 14.—General Montgom-
ery Moore, the new commander of the Im-
perial forces in Canada, arrived at Halifax
yesterday and was received with the usual
salute.

Over a Hundred Years.

KINGSTON, June 14.—Mrs. Snider, col-
ored, is dead in the General hospital, aged
100 years. She was the oldest representa-
tive of her race in the district and was a
resident of this city for over sixty years.
Her parents were slaves in Virginia, and
some of her relatives were owned by Gen-
eral Washington.

Supposed Suicide.

NIAGARA FALLS, June 14.—Harry E.
Holmes, treasurer of the Pittsburgh Fuel
Company and other concerns, who came
here some days ago, is missing and is
thought to have suicided.

WASHINGTON'S DISASTER.

A New Inquest Ordered to Begin at
Once.

WASHINGTON, June 14.—The commis-
ioners of the District of Columbia decided this
afternoon to order a new inquest over the
bodies of the Ford's theatre disaster victims,
and directed Mr. Thomas, attorney for the
district, to assist Coroner Patterson in con-
ducting it. An inquest was ordered on the
bodies of Mrs. Loftis and Eagan, two of the
victims, who are still in the vault in Green-
wood cemetery, and the officers of the cem-
etery were ordered not to inter them with-
out the permission of the coroner. Dr. Pat-
terson decided to re-summon the old jury.
One of the bodies at Glenwood will be
viewed by the jury to-morrow and the in-
quest begun anew.

BISMARCK'S DELIVERANCE.

He Favors an Increase in the Military
Strength of the German Empire.

BERLIN, June 14.—Prince Bismarck has,
in an interview, come out in favor of an in-
crease in the defensive strength of the Em-
pire, but not on the lines laid down by the
Government in the Army bill. Conversing
to-day with Professor Kahl, who was visit-
ing the ex-Chancellor at Friedrichsruhe,
Prince Bismarck declared that an increase
of the army was necessary. He differed
with the Government, however, as to how
the increase should be made. He did not
approve of adding to the infantry or cavalry
strength of the army, but maintained that
the increase should be made to the artillery
forces, which, he declared, would decide the
battles of the future. With regard to
the increased expense that would follow the
increase of the army, Prince Bismarck said
that Germany was fully able to bear the
added cost that would be entailed by add-
ing to her military strength.

Cholera Appears to Make Headway in
Europe—Hamburg Refuses Rus-
sian Immigrants.

Further Complications in Samoa—Rev.
Father McGlynn and the
Pope.

Russian Regulations.

St. PETERSBURG, June 14.—An Imperial
law has been enacted to provide for more
severe punishment of sealing poachers in
Behring Sea. Hereafter all persons, Rus-
sian or foreign, if caught sealing in Russian
waters, will be liable to sixteen months' im-
prisonment and the confiscation of their
vessels, together with the cargo and tackle.

Riots in Germany.

BERLIN, June 14.—More riots are re-
ported from Essen and Cologne, and dozens
of women and children have been wounded in
encounters. The ringleaders in the riots
have been imprisoned.

No More Siberia.

VIENNA, June 13.—Newspapers report
that the czar intends to promulgate a ukase
on January 1, abolishing deportation to
Siberia and extending the same judicial pro-
cedure which obtains in Russia proper, to
Siberia, with the exception of trial by jury.

The Latest Allocation.

LONDON, June 14.—A correspondent at
Rome telegraphs that the latest allocation
of His Holiness is an energetic discourse on
the situation in Italy and the general policy
of the Vatican. The Vatican Cycle poet-
rophs the utterances of the Corriere di
Napoli in regard to Monsignor Satolli and
the American clergy and other stories of a
similar nature which have been published
from time to time.

James Gordon Bennett Better.

PARIS, June 14.—James Gordon Bennett
continues to improve. He sleeps fairly well
at night and was able to pay slight atten-
tion to his correspondence to-day. The
complications usually feared in similar cases
are absent. The physicians hope that the
patient will not be compelled to keep his
bed more than a month longer.

Dr. McGlynn Restored to Favor.

LONDON, June 14.—A correspondent in
Rome telegraphs this evening that His
Holiness has given a long audience to Dr.
McGlynn. It was very cordial. Cardinal
Rampolla, papal secretary of state, and
Cardinal Ledochowski, prefect of the propa-
ganda, were extremely courteous to the
doctor. Dr. McGlynn was enchanted with
his reception and his complete reconciliation
with the Pope, and left to-night after a five
days' sojourn at Rome.

To Prevent Cholera.

HAMBURG, June 14.—The Senate, in or-
der to prevent the introduction of cholera,
has issued a notice to the police to strictly
enforce the ordinance prohibiting the entry
of Russian emigrants, either by land or
water, even though they are duly furnished
with money. First class saloon passengers
with tickets for the United States are not
affected by the ordinance.

Deaths From the Scourge.

LONDON, June 15.—There have been four
deaths from choleraic causes at Cettie, in
France since Friday. At Mecca, in Arabia,
during the same period, there were 155
deaths from cholera.

Affairs in Samoa.

AUCKLAND, N. Z., June 14.—Advices re-
ceived from Samoa to-day announce that
Matieta, still refusing to compromise with
his rival, has directed the Government
forces to advance and enforce Mataafa's
submission to him. War is believed to be in-
evitable. Mataafa is very popular and has
numerous devoted adherents.

MARINE MOVEMENTS.

A private letter from Hakodate contains
the news that two boats with their crews,
belonging to the Victoria schooner Sadie
Turpel, are in that port. They had lost
their schooner in a fog and will be
obliged to remain where they are until the
Turpel calls at Hakodate for them.

THE ARBITRATION.

Elliott's Report on Seal Life Not to
be Submitted to the
Tribunal.

The Court's Decision Expected to
be Made About the First
of August.

PARIS, June 14.—Sir Richard Webster
to-day announced his intention to read to
the court the report of the debate in Con-
gress in Washington in regard to the ap-
pointment of Mr. H. W. Elliott, who was
sent by the Government of the United
States to examine into the methods of seal-
ing and other matters connected with the
sealing industry at the Pribyloff Islands
and in Behring Sea. This report, Sir
Richard added, he had just received.

Mr. James G. Carter, of counsel for the
United States, at once demurred to the
reading of the report.

Mr. E. J. Phelps, also of American coun-
sel, said he would waive objection to the
reading, provided that the Americans were
also privileged to introduce new evidence,
which he held the reading of the report to be.
If, he contended, the value of Mr.
Elliott's studies of seal life, and the sealing
industry was to be judged by the tribunal,
let it be judged from the evidence to be sub-
mitted by both sides of the case.

After a short interval the arbitrators
surrounded Baron de Courcel, the president
of the tribunal, and conferred together re-
garding the reading of the report. In the
meantime Mr. Phelps and Sir Richard
Webster conversed with each other. The
latter eventually announced that he and
Mr. Phelps had arranged that the report
should not be read. The arbitrators then
resumed their seats and Sir Richard took up
again the thread of his argument. He
dilated upon the habits of female and pup
seals with a view to proving that it was
needless that the protected zone within
which seals should not be captured, should
exceed a distance of twenty miles from the
land.

WASHINGTON, June 14.—Officials at the
State department are of opinion that the
arguments of counsel before the Behring Sea
Arbitration Commission will be concluded
within the next ten days, and that with the
exception of General Agent Foster, all the
officers connected with the preparation and
presentation of the American case, will then
return to the United States. It is also ex-
pected that the decision of the arbitration
will be announced by August 1.

MONTREAL MATTERS.

Local Ministers Sue "La Patrie"—The Bridge-
man Shooting—Australian Mails
by the "Miwera."

MONTREAL, June 14.—All the provincial
ministers with the exception of Messrs.
Hall and McIntosh, who are absent from
Canada have taken action for libel against
La Patrie, of Montreal, for publishing libel-
lous statements concerning the management
of the Jesuits' estates.

Courtland Freeman Bridgeman, who has
been on trial before the court of Queen's
Bench for shooting his wife in the streets of
Montreal, several weeks ago, was declared
guilty by a jury this evening of shooting
with intent to kill and murder. Bridgeman
was visibly affected by the rendering of the
jury. Sentence was deferred. Bridgeman
is from Winnipeg, where his people are well
known.

The first mail from Australia for London
arrived here this morning and will be for-
warded to New York by the Delaware and
Hudson Railway thence to Southampton by
the Victoria Augusta. The last named
steamer is due there on the 22nd, making
the total time from Sydney to London 35
days which is three days less than by San
Francisco, and somewhat less than by the
Suez Canal.

Epworth League Convention at Vancouver—Floods Along the Fraser River.

Coal Discovery Near Westminster—Departure of the Miowera—News From the Interior.

(Special to the Colonist.)

VANCOUVER, June 14.—A Chinese prospector, formerly in Victoria, has returned with one child, a slave. Tom Chue, Chinese missionary at Victoria, is here looking into the case.

The Hamilton Powder Co.'s store was entered by thieves yesterday, and a quantity of powder was stolen.

Fifty delegates are in Vancouver attending the Epworth League convention.

The Australian steamer Miowera left her wharf on her outward trip, this afternoon at 4:35, official time.

A new Court of Foresters has been organized called Court Pleasant.

The trouble between the city and tramway is at an end. The double track is being laid in Hastings street to day by Contractor McGilivray.

Ladies of Vancouver are collecting for the Princess Mary wedding present.

The License Board met on Monday to grant licenses. There are more applications than the law allows.

Mr. K. Yoskii, son of the late Viscount Yoskii, will be a passenger to Japan on the Empress of Japan.

Mr. Neil Buckstone was a passenger on the Empress. Mr. Buckstone's travels among the mountains in Japan were recorded in the press. While the civilized world thought him lost he climbed alone up a 1,250 feet mountain and down the other side.

Yesterday was the anniversary of the fire. Many reminiscences were recalled. Old timers treated old timers, and the local papers reviewed the past.

Joshua Russel died yesterday, aged 56.

Mr. Ward, agent of the Australian line, says that mutton is put on board his boats at Australia at 2½ cents a pound. There are carrying charges of 4 cents a pound, and it is retailed in Vancouver at from 20 to 24 cents. Bananas are put on the boat at a shilling a bunch.

Mr. Leeson, of the firm of Baker & Leeson, while overhauling Honolulu bananas found two hatching bird's eggs and a tarantula in one of the bunches.

Capt. Thompson and Mr. E. White will represent Vancouver in the trap shooting tournament to be held on Dominion Day.

The bank clerks and law students will play at cricket on Saturday.

WESTMINSTER.

June 14.—The water in the Fraser river opposite the city at high tide to-day registered 11 feet 1 inch above low water mark. This leaves a necessary rise yet of 21 inches before the 1887 level is reached. The lands are flooded at various points up the river.

John Douglas discovered a small outcrop of bituminous coal on his place near Brownsville a few days ago, and begins work to-morrow to develop it. He has sent to Nanaimo for a coal expert to come over and examine the find.

Ald. Kearney and Hoy left for Toronto to-day to attend the A. O. U. W. Supreme Grand Lodge meeting.

Deep regret is felt here over the death of P. McIlernan. He was esteemed by all and the Indians fairly worshipped him.

The first local strawberries are on the market.

The Chilliwack camp meeting which commenced last week closed to-day. The campers had a nice moist time. The frequent rains interfered considerably with the success of the meeting, but it was far from a failure. Rev. Mr. Whittington and Rev. Mr. White both assisted at the services.

NANAIMO.

NANAIMO, June 15.—The tenders for the resurvey of the city have been opened, but no decision has been reached as yet. Palmer & Corrigan, of Vancouver, sent in the lowest tender, \$3,490; Keefer & Smith, of Victoria, want \$12,074 for the work. The contract will be awarded at a special meeting of the Council to-morrow evening.

The regular monthly drawing of the Nanaimo Building Society for the \$2,000 appropriation was held last evening. Number 179 was drawn, held jointly by Mrs. R. J. Wenbrum and Mr. J. Gray, of Gabriola Island.

The R. E. French Stock company play here next Wednesday.

On Saturday afternoon, June 24, the infantry corps marches out to Nanaimo river, where camp will be made for the night, the corps returning the next day.

After seven days patient hearing of the Indian murder case the jury retired to consider their verdict at 4:30 this afternoon.

Loe Yet, Chinaman, charged with fraudulently appropriating certain moneys, pleaded guilty.

NELSON.

(From the Tribune.)

Last week a Columbia river steamboat had a cargo of 130 tons of sugar, imported from China by Spokane wholesale grocery houses.

J. F. Burr and Price McDonald, who returned from Goat River district, report a number of men in that section prospecting and doing assessment work.

A company, of which Dr. Kilbourne, of Seattle, is one of the promoters, is canvassing Kaslo with a view of lighting the town by electricity.

The owners of the townsite of Lardau will, it is said, contribute \$5,000 towards building a wagon road from Lardau to Trout Lake City at the northwest end of Trout lake.

During April and May the customs collections at points on Kootenay lake amounted to \$22,880 57.

The Government has authorized the local officials to accept the lowest of the five tenders in for the Court house at Nelson.

At their last meeting the directors of the hospital society concluded to call for tenders for a building to cost not more than the funds then in sight, about \$3,000.

Seventeen men are at work on the wagon road from the town of Trail to the mines in Trail Creek district. The money was advanced, in part, by mine owners and by the owners of the townsite, the Government appropriating between \$2,000 and \$3,000.

There is a strong feeling among New Denver people that they are entitled to more than the weekly mail now allowed.

Advices from East Kootenay are that the steamer Annerly was 12 days in making the trip from Jennings, Montana, to Fenwick's landing, a few miles below Fort Steele, on Kootenay river. She had aboard iron pipe and the English syndicate that now owns hydraulic mines on Wild Horse Creek

and a cargo of general merchandise, besides a number of passengers.

Work will be started on both sides of Silver King and Dandy mines, in Nelson district, in July. The report is that \$800,000 is now in an English bank for the purpose of putting in machinery on the Silver King and for developing the property. The owners of the Dandy are only waiting the disappearance of the snow to begin work.

Since it was first worked, No. 1 mine, in Ainsworth district, has been a source of revenue to its owners. According to reports, the dump, is estimated to contain 8,000 tons of ore that can be profitably concentrated. Mr. Stevenson, has rigged up a hand jig, through which he daily runs enough ore to return half a ton of concentrates. A rich body of ore has also been struck in the mine.

(From the Miner.)

Some twenty locations have been made round Frank McGuire's claim on Eight Mile creek.

The land on the east bank of the Duncan is now all taken up from the C.P.R. grant to the end of Hauser Lake.

A number of prospectors are going into Grizzly Creek, two and a half miles from Argentina, and some good galena locations are already reported.

Several shareholders of the Van Winkle Hydraulic Mining Company were in Lytton last week in expectation of seeing the first clean up. There was not sufficient water, however.

(From the Inland Sentinel.)

The Thompson river, which fell considerably during the earlier part of the week, has risen higher than ever of late.

In the hands of Mr. Gladwin, president of the Inland Agricultural Association, everything will be done to make the fall fair at Ashcroft the best one yet held.

High water in the Salmon Arm river is steadily lowering, thus giving settlers a chance to get in their crops. A few farmers have had to replant.

W. G. Baldwin, representing the far house of Uhlmann, of New York and St. Paul, has just returned from the upper country. As usual, he has cleaned up the catch for the year.

In the Pavilion Mountain settlement, the lack of a proper school is much felt, and the parents have petitioned for a public school. It is expected that one will be opened after the summer holidays.

In the Cinnabar mine a tunnel is being drilled to strike the ledge.

The wood on the tender of No. 358, Ed. Austin, driver, was discovered to be on fire when about twelve miles from Ashcroft station on Sunday evening. Not having water enough in the tank to put it out, the engine was detached and run with great speed, the wood on the tender sending out a towering sheet of flame. The fire was soon extinguished, but reduced the water equivalent to 3,000 gallons. The brakeman, who in the face of that fire while running at high speed drew the connecting pin, performed a brave deed.

GERMAN ELECTIONS.

The Topic on Every Tongue—Their Results in the Greatest Doubt.

BERLIN, June 14.—To-day all is expectancy. To-morrow's election is the topic on every tongue, and it may well be, for the result will determine the success or failure of the young Emperor's policy during the last five years. The number of candidates in the field for seats in the Reichstag is greater than ever before. The Social Democrats will contest 357 seats, or only 40 less than the entire number. The Anti-Semites have made 142 nominations; the Radical party, under Richter's leadership, has 160 candidates in the field; while the Clericals, Conservatives, Guelphs, Poles, Alsatians and Independents contribute long lists of candidates to swell the grand total.

LIQUOR LICENSES.

The New Board Hold Their First Meeting and Transact Considerable Business.

Two Applications for New Licenses—The Magistrate Raises a Fine Point of Law.

His Worship Mayor Beaven, Police Magistrate Macrae and Dr. I. W. Powell, J.P., sat yesterday morning as a Board of Licensing Commissioners for the city of Victoria, and disposed of a very considerable list of business with commendable despatch. There were seven applications for transfers, nine for renewals, two for temporary licenses, and two for new licenses. Consideration of the last mentioned was deferred until Monday afternoon next at 2:30 o'clock.

The most interesting point developing during the session was in connection with the double application of Steve O'Brien—first for the transfer of the license for the Senate Saloon from 91 to 93 Government street; and second for the transfer of the same license from the applicant to Frederick Weldon.

Police Magistrate Macrae, in reference to the first request, raised the point that it was beyond the power of the Board to grant, section 218 a, of the Act, by implication, stating that the transfer from one premises to another is only permissible in the event of the licensed premises being rendered, by fire or some other apparent cause, unfit for business purposes.

Mr. R. B. Gregory (Juryman & Gregory), who appeared for the application was not ready to answer the point and the application was adjourned until Monday. The transfer from S. O'Brien to F. Weldon was allowed.

The two new licenses asked for are for the Osborne House, at the corner of Blanchard and Pandora streets, and for the Board of Trade building, on Bastion street. The former is opposed by two petitions, the one from David Spencer, on behalf of the Metropolitan Methodist church, Pandora avenue, and the other from Rev. John Campbell, Ph.D., and George Pottinger, on behalf of the First Presbyterian Church, directly opposite the premises proposed to be licensed. The record of business transacted yesterday is as follows:

Export of Canadian Hay—Home Mission Work Neglected on Account of Limited Resources.

TORONTO, June 14.—(Special)—A Mr. Underwood of London, England, is here at present at the request of the Dominion Government for the purpose of stimulating the exportation of hay to London, England. He says he believes there is a good future for the trade if properly handled.

At a meeting of the Synod of the Toronto diocese, yesterday, Bishop Sweatman, in his annual address, stated that home missions had been much neglected during the past, so much so that in order to carry on the necessary work he had become personally liable to the banks.

PHILANTHROPIC EFFORT.

Eight Sections of the World's Congress of Charities and Kindred Work Meet.

Some of Their Proceedings—A Very Interesting Programme of Discussions.

CHICAGO, June 14.—For the third time the eight sections of the World's Congress of Charities, Correction and Philanthropy convened this morning with an attendance fully as large as that of either of the two preceding days. The gathering thus far has been one of the most largely attended yet held in the Art Palace, notwithstanding the fact that the sub-division of the work renders it impossible for a single person to participate in or listen to more than a small proportion of the proceedings of the entire body. The success of the congress, however, is largely attributed to this division of the work, as everyone interested in philanthropic work of any kind is thus afforded an opportunity of giving his or her views, and listening to those of others in a meeting called for that express purpose.

Section 1, which is considered the public treatment of pauperism, did not come together until 2 o'clock in the afternoon, when the proceedings were opened by M. de Queker, of Brussels, and Prosper Van Geert, of Antwerp, who discussed, "Poor Relief in Belgium." The remainder of the session was occupied by the following papers: "Poor Relief in Mexico," by Signor Nicholas Islay Bustamante; "The Extent of Pauperism, Absolute and Relative, in the United States, England, Germany, France and other Countries," by Mr. Frank B. Sanborn, of Massachusetts; and "Cause of Pauperism and Efforts on the Part of the States to Determine Causes and Prevent Pauperism," by Mr. A. O. Wright, of Wisconsin.

The section devoted to the care of neglected children also held its session in the afternoon, when the consideration of "The Care of the Feeble-minded and otherwise Defective Classes," was taken up, and discussed informally. Chairman John S. Billing, of Section 3, called his department to order at 2 o'clock, and presented Dr. Robert Harvey, principal medical officer of the British frontier at Peshawar, India, who read an interesting paper on "Movable Hospitals in India." Dr. J. L. Notter, of England, then discussed "Army Hospitals," and was followed by Dr. William Wallace Ord, of the same country, on "The Utility, Peculiarities and special needs of hospitals for children."

The following numbers were then presented: "Naval Hospitals," Dr. James D. Gatewood, surgeon, U.S. navy; "Army Hospitals," Dr. A. C. Girard, surgeon, U.S. army; "Detention Hospital for Insane and Alcoholic Patients," Dr. Matthew B. Field, examiner in lunacy, New York; "Cottage Hospitals," Mr. Francis Bacher, London, England; "Hospital Plans," illustrated by Dr. L. S. Pilcher, Brooklyn; "Special Hospitals," Dr. D. C. Hirst, Philadelphia; "Hospitals for Contagious and Infectious Diseases," Dr. M. L. Davis, Lancaster, Pa.

The sub-section on nursing met at the same hour, the following programme being presented: "The Requirements of Nurses in Speciation of Nursing," Miss M. A. Snively, Toronto, Ont.; "District Nursing," Miss Daera Craven, London; "Private Nursing," Miss A. Hintz, Boston; "Infirmary Nursing," Miss Josephine D. Pledge, London; "Nursing in Almshouses," Miss A. C. Gibson, Birmingham, Eng.; "Nursing in Sanitariums," Mrs. Bedford Fenwick, London.

The section devoted to the care of the insane met in Hall 22 shortly after noon, and Chairman G. Alder Blumer presented Dr. H. E. Allison, of New York, who read an interesting paper on "The Care and Custody of the Criminal Insane in the United States." The remainder of the programme comprised the following papers: "The Mental Examination of Convicts," by Dr. Jules Morel, Ghent; "The French Law in its Relation to the Irresponsibility of the Insane," Dr. Victor Parent, France; "Statistics of Insanity in New South Wales," Dr. Chisholm Ross. Section 5 considered "The Relation of Education to Crime," the subject being considered informally; section 6 considered "Relief in Work—Labor Tests," section 7 resumed the lengthy programme on Sociology. Section 8, on the care of feeble-minded children, was addressed by Dr. George E. Shuttleworth, of Lancaster, England, on "State Care of the Feeble-minded—The Question in Europe." An animated discussion followed in which Dr. A. H. Wildermouth, of Wurtemberg, and Professor Kjellberg were the leaders. Dr. A. C. Rogers, of Fairbault, Minn., discussed "State Care of the Feeble-minded in America," and the discussion which followed was participated in by Drs. F. M. Powell, of Iowa, J. C. Blake, Fort Wayne, Ind., and W. N. Ashman, of Philadelphia.

President Carnot Sick.

PARIS, June 13.—The condition of President Carnot, who is suffering from a liver complaint, shows no improvement to-day. Dr. Potin and Dr. Planchon, who are in attendance upon him, are firm in their insistence that he throw aside the cares of office and take a rest to allow his system to recuperate. M. Carnot has agreed to follow their advice.

Ferdinand and His Bride.

SOFIA, June 13.—Prince Ferdinand and his bride entered this city in state on Sunday. The pomp and glitter of the pageant was not approached before in Bulgarian history. The crowds were packed densely almost to the carriage wheels and cheered constantly for the Princess, who appeared in Bulgarian national costume.

Sealing in Russian Waters.

ST. PETERSBURG, June 13.—An Imperial law has been enacted to provide for the more severe punishment of sealing poachers in Behring Sea. Hereafter all persons, Russian or foreign, if caught sealing in Russian waters will be liable to six months' imprisonment and to the confiscation of their vessels, together with their cargo and tackle.

Bohemian Miners' Strike.

VIENNA, June 13.—More than 2,000 men quit work in the iron and coal mines at Kladno, Bohemia, and the strike is spreading rapidly. Troops have been ordered to the mines from Prague.

STOCKS AND PRODUCE.

Latest Prices in New York—Securities Quiet and Irregular—Speculation Firm.

New York, June 14.—Pacific Railroad bonds closed as follows: Firsts, 100½ bid; Union Sinking funds, 102½ bid; Centrals, 105 bid. Money on call, 5½ to 6 per cent. Foreign Exchange, posted rates, sterling, \$1 86 for sixty days, \$1 88 on demand. The stock market was quiet again to-day and irregular in its course, considering the live undertone. Speculation was comparatively firm and in numerous instances prices closed higher than yesterday. The bears had in their favor the continued influx of currency to the west estimated at \$1,500,000 to \$1,850,000 and the numerous failures reported in banking and business circles. The transactions quoted up to 170,542 shares, including 14,112 unlisted. Closing bids: Canadian Pacific, 72½; Central Pacific, 25½; Denver & Rio Grande, 13½; Missouri Pacific, 34½; Northern Pacific, 13½; Northern Pacific preferred, 34½; Oregon Navigation, 68; Oregon Improvement, 12; Pacific Mail, 18½; Texas Pacific, 7½; Union Pacific, 29; bar silver 83½.

New York, June 14.—Flour steady and quiet. Wheat opened firm and advanced ½c. to ¾c. on firmer cables, heavy foreign buying and shorts covering. It declined ½c. to ¾c. on weakness at the West, through reports of financial trouble; advanced ½c. to ¾c. on firmer late cables and firmer West; closing firm at ¾c. to ¾c. over yesterday, with a fair trade. Closing prices—June, 72½; July, 74½; September, 77½; December, 82½. Hops firm; Pacific coast, 18c. to 21½c.; London, hops, dull and unchanged. Coffee dull and easier. Sugar, firm and fairly active; fair refining, 3½c.; centrifugals, 96 test, 4½c.

THE MARKETS.

Honolulu vs. California Fruits—Potatoes Drop a Point—The Latest Quotations.

Although the opening of the direct Australian route has not influenced the markets much so far, it is expected that in the near future it will produce a strong competition between the Sandwich Islands and California for fruit and vegetable business, and the result will most assuredly be beneficial to Victoria. The importations during the week of new California potatoes, have considerably reduced prices, and they are selling now at 2½ cents per pound, while the old stock is going at 2 cents.

Other vegetables are in good demand, but retain their old prices. In the meat line there is a scarcity of hams and bacon, merchants finding it rather difficult to secure good qualities. Packed eggs are selling for 15 and 18 cents, while fresh ones retail at 25 cents. There is a fair supply of fish, and fruits are becoming more plentiful, apricots being the latest delicacy in the market.

THE CARDINAL AND THE FAIR.

NEW YORK, June 13.—The World yesterday published an authorized interview with Cardinal Gibbons in regard to the proposed closing of the World's Fair on Sundays. Cardinal Gibbons is quoted as saying: "We believe the Lord's day to be not only a day of rest and religious observance, but a day on which innocent recreation is allowable. If a visit to the fair came within that limit, the opening of the fair to provide innocent recreation on Sunday afternoons cannot be considered a desecration of the day. Having performed the religious duties required of them in the morning, our Catholic people are then free to spend the day in such recreation as becomes Sunday. These and other reasons lead me to believe that the fair should be open on Sunday afternoon, and that more evil will result from Sunday closing than opening."

Jules Ferry's Successor.

Ploughs, Harrows, Reaper, Fanning Mill, Wagon, Sleds and usual Farm Implements.

Double Harness, Chain Harness, Bull Chains, Saddles (ladies' and gent's), Bridles, etc.

Blacksmiths' Bellows, Anvil and Tools and Carpenters' Tools.

9-Room House (shingle roofed; Stable for 10 horses. with hay loft above; Stone Roothouse, Store Buildings, Dairy, Cow Sheds, etc., etc.

4 Miles (about) Standing Fences, in good order; Corrals, 10 miles barbed wire and staples; about 2,500 Posts on the ground, ready for use, etc., etc.

Small Lot Household Furniture, Stove and Pipes, Crockery, etc., etc.

This Property is within easy distance of many of the most important Gold, Silver and Coal Mines in West Kootenay. The population of this district will increase this year by at least 10,000; the area of farm land is very limited, and from this it may be fairly ascertained that beef and all classes of farm produce will find a ready and lucrative market. The soil is the best bottom land, and the locality is one of the few places in the Province where so large a piece of good farm land can be found in one block. A river runs through the property, and rainbow trout are plentiful and afford capital sport. Deer abound in considerable numbers. Bear, Wolf, Coyote and other large game are to be found in the hills. There are two creeks recorded and belonging to the estate, one flows all the year round. Limestone and brick clay are to be had in the valley.

The Cattle are well bred; a much larger herd could be farmed with the place. The bunch grass on the hills in the vicinity covers many thousands of acres, and is available to the few land owners in the valleys. All buildings and fences about the farm are in good order, and farming operations can be gone on with at once; about 180 acres of ploughing have been, so far, provided for this year's work.

The Climate is not severe, the land being about 1,100 feet above sea level; the station was for many years the winter quarters of the H. B. Co.'s pack trains. There is a weekly express in and out. Goods and supplies at wholesale can be procured on order and delivered in 48 hours.

The Title is by grant from the Crown, and is free of all encumbrances. Immediate possession can be given.

Important Railway works are now in progress within moderate distance, and two railway lines have been run to pass close to or through the estate, which can be reached in the spring in three days' journey from Victoria.

The South West Kootenay District, British Columbia, judging from the actual ore products of the mines this winter, is destined in the next year or two to become one of the richest and most important mineral centres in the world. Statistics show, that although the district is in its primary stage, the mines have developed ore veins rich enough to warrant the investment of over a million dollars. When these mines come to be worked systematically, there will be an

Influx of Population, which will require beef and farm produce in large quantities. The limited quantity of really good farm land in the district to supply these requirements makes this

THE WESTMINSTER PETITION.

We have received "an exact copy of a petition now being circulated throughout British Columbia for signature." It is addressed to the Honorable C. H. Tupper, Minister of Marine and Fisheries, and, after a somewhat long preamble, in which the rights of white labor are set forth and insisted on, the petitioners "beg and pray" "that no Japanese be granted a license" to fish salmon.

The fishermen held a meeting some few days ago in Westminster, at which several gentlemen of intelligence spoke. It is very singular that not one of them had the honesty and the courage to tell the men that neither the Minister of Marine nor the Government of the Dominion have the power, even if they had the will, to treat the Japanese in any way differently from aliens of any other nation. The Government of the Dominion has no more power to discriminate against the Japanese in the matter of granting fishing licenses than it has to discriminate against Frenchmen or Swedes, or Italians, or Hungarians, or Armenians, or Greeks, for we understand that among the fishermen on the Fraser men of all these nationalities can be found. It must not be forgotten that under the British flag white men, whether they are subjects of the Queen or aliens, have no rights which men of other complexions of the same class do not enjoy. It is the very first principle of British freedom that all men are equal before the law, and it is the boast of British statesmen that under British rule color is no disability. This is not hifalutin, intended only for show days and particular occasions, but a living practical principle on which the Government deals with the people under its jurisdiction. The fishermen ought to have been told by the men in whom they have confidence that there are some things which they have a perfect right to ask for, but that there are other things which the Dominion Government cannot and will not grant. To discriminate against men because of their color is one of these. How would some of the signers of the petition feel if a movement were set on foot to exclude all foreigners from the province? Would they think it fair if canners and other employers were not allowed to employ any one who was not born on British soil. They would very properly regard such a policy as narrow and mean and selfish, and opposed to the progress of the country. Yet the Government has as much power to ordain that foreigners of all nations shall be denied employment in the country as it has to withhold licenses from natives of Japan because their skin is a few shades darker than that of Scandinavians.

The truth is that nearly all foreigners have good treatment secured to them by treaty, and the Government cannot discriminate against them without violating that treaty. It is not to be expected that the Government of Great Britain will break faith with any nation to please the signers of the petition now being circulated throughout British Columbia.

The petitioners ask for other things which it is within the power of the Government to grant. These are all connected with the regulation of the salmon fishery. It may, or may not, be in the interests of the people and consistent with the preservation of the salmon to grant the prayer of the petitioners. It is not our object to discuss this subject just now. What we would like to do would be to exhort the petitioners to be cautious and careful not to do serious injury to an industry which is one of the great sources of British Columbia's prosperity. It is not so hard to do this as some of them may think. The great object of the Government has been hitherto to preserve

the salmon, to prevent the Fraser and other British Columbia rivers from being over-fished. For that purpose, regulations have been made, limiting the number of licenses being one of them. That regulation is not, we understand, approved by all the canners, but it has been made after much study and inquiry, and the probability is that it accomplishes its purpose, that of preserving the salmon, better than the free trade in licenses—the exclusion of the Japs always excepted—which the petitioners want to see inaugurated. This is a matter that requires discussion by experienced and impartial persons, and it must not be decided to suit the views of what either the canners or the fishermen consider their interests.

Then care must be taken not to drive men of capital out of the business. Salmon packing requires capital. The men engaged in it must have money to provide all that is necessary to go on with the work, and they must also be able to stand the loss consequent upon one or two bad seasons. If shortsighted agitators, in furthering what they believe to be their interest, make salmon packing unprofitable, which they can easily do, the fishermen will find, when it is too late, that they have killed the goose that laid for them the golden eggs. The citizens of New Westminster ought to be very careful of the interests of the salmon fishery. The prosperity of their city depends, to a very great extent, on the prosperity of that industry. Should it be seriously injured by ill-judged agitation they will be among the greatest sufferers. They should not countenance movements that are calculated to unsettle men's minds or encourage the fishermen to ask for what every intelligent man knows they cannot obtain.

NOT MISCONCEIVED.

Mr. Coudert must have thought the people on this side the Atlantic very stupid, when he came to the conclusion that they do not realize the scope of his contention that the United States owns the seals borne on the Pribyloff Islands, and that they do not see the conclusions to which it leads. They are a good deal brighter than he thinks they are. It did not take them long to see that if his claim were allowed there would be no necessity to prove that Behring Sea is a *mare clausum*, for, allowing that the United States is as much the owner of the fur seals as it is of the cavalry horses and the baggage mules of the army, it will have to be admitted that it has a right to claim them wherever they are found, and also to prosecute any one who kills or injures them in any part of the Northern Pacific without its permission. If the Arbitrators decide that the fur seals are the property of the United States, British subjects will have no more right to kill them even in British waters than a farmer has to kill his neighbor's sheep when it strays into his pasture. This is one of the "grotesque" conclusions which the New York Times alluded to when it was discussing Mr. Coudert's contention.

There has been no "misconception" about the matter among Canadians at any rate. They saw what Mr. Coudert's argument led to as soon as it was enunciated. They saw, too, that it made the other contentions of the United States of little or no importance, for, if it were granted that the United States owns the seals there was an end of the matter. There was no question of jurisdiction or even of regulation to settle. Every one knows that the United States is quite able to look after its own property, and it would not want Great Britain or any other nation to help it look after its big herd of fur seals. What, perhaps, Great Britain might insist upon is that the United States should brand or mark in some way the seals that first saw light on the Pribyloff Islands, so that its officers might be able to swear to the skins when they saw them, for it is, we believe, admitted that some seals are brought forth on Russian territory and that others are born on islands which are owned by the Government of Japan. In order then that there should be no mistake as to the ownership of the seals found swimming in the waters of the North Pacific ocean and the seas, bays and sounds connected therewith, it would not be unreasonable to ask the Government of the United States to put some kind of mark on its own seals.

THE SEPTEMBER SESSION.

The announcement that there will be an extraordinary session of the Congress of the United States has been received with favor from one end of the Republic to the other. The financial condition of the country is not by any means satisfactory. There is unrest and anxiety in commercial circles. Disaster is feared, and many believe that the late failures of banks and mercantile concerns are only the beginning of troubles. People look with apprehension at the decrease of the Government's reserve of gold, and they fear that the continual increase of its store of silver will lead to difficulties and embarrassments that may bring ruin to many.

It is believed that Congress, when it meets in September, will repeal the Sherman law, and this will put an end to the piling up of silver, which must be redeemed with gold on pain of a commercial catastrophe. It is well known what the President's views are on this matter; but it is also well known that the only force which the President can bring to bear on the situation is moral force. He has no constitutional authority to dictate to Congress what it shall do or what it shall not do. He can recommend a certain course, but Congress is perfectly free to disregard his recommendation. It is hoped that the influence of the President, backed up by what is believed to be the earnest desire of a large majority of the people, will have the effect of inducing Congress to do something to relieve the country from the

strain which, if increased at all considerably, will be more than it can easily bear. The situation is serious. This is what the New York Times says about the early meeting of Congress:

Will Congress repeal the law of 1890 when it assembles? We believe that it will, because Congress always general public sentiment, and the sentiment for repeal is already general and strong and will spread and grow stronger every day for the next three months. The unfortunate condition of business is clear enough to all who care to know the truth, and will force itself upon the mind of the country more and more as time passes. Everyone will demand specific action, and repeal is the only specific action that can be proposed. It will have the great authority given by Mr. Cleveland's reputation for sound sense, for careful judgment, and for perfect fidelity to the public interest. Meanwhile, there is a plain duty resting on the financiers and bankers of the country, and particularly upon those of the city of New York. It is the duty of organizing and directing public opinion in such a manner that the members of Congress from every section of the Union shall clearly understand its demands. Members of Congress are, as a rule, too generally left to the influence of the politicians. They are, in very many cases, not business men themselves. They are generally honest, and patriotic and sensible, and desire sincerely to do what is best for the whole country, but they have little direct intercourse with the business community, and they do not know what its real needs or its real wishes are. Now, in every Congressional district there is a number, larger or smaller, of active men of affairs. They are all customers of banks, depositors, borrowers, shareholders. If the officers of every bank and banking house throughout the land should make it their business to see that the member of Congress from their district was personally informed of the views of these business men, we are confident that a majority, and a large majority, for the repeal of the law of 1890 would be found in both houses of Congress.

The work of revising the tariff, to which the Democratic party is pledged, may be commenced during the extra session, but it can hardly be completed. To revise the tariff of the United States is a difficult and a delicate undertaking, and will require much time and thought. That it will be done, though not to the extent that some seem to imagine, does not admit of a single doubt.

THE auction sale to be held to-day on the premises, corner of Wharf and Bastion streets, notes the retirement from business of A. B. Gray & Co. The sale comprises a full line of staple liquors and cigars, and includes consignments of ales, stout, aerated waters, cognac, whiskies, etc., and is by far the largest sale of liquors yet held in the province, comprising upwards of 2,000 packages. Joshua Davies will be the auctioneer and the sale commences at one sharp.

SHERIFF WARFIELD, of Merced, California, arrived last evening in connection with the Reams abduction case, but brings few additional particulars of the elopement. The facts have already been fully narrated. When the case is called to-morrow it is probable that the prosecution will ask for a remand, as the formalities have not yet been fully complied with, and it is quite possible that the sheriff may be obliged to return to California for fresh requisition papers. In this event he is anxious to have Miss Rucker accompany him, her father being ready to receive her back again. Mr. Warfield had an interview with the young lady last evening, but whether she will return with him or not is still indefinite.

THE old firm of Boucherat & Co., which has been run under that name by J. Coigdarrie and Luke Pither for several years past, has now been merged into Pither & Leiser. Mr. Coigdarrie's interest having been purchased by Mr. Max Leiser, brother of the wholesale grocer and dry good merchants. The excellent reputation of the old firm has been maintained by the recent, and will be continued by the new firm. Boucherat & Co. have been noted since the early commercial history of the province for dealing in everything that was good in their line, and this record is sure to be maintained by Pither & Leiser, both of whom are young and energetic men, capable of handling the large business that is always done by Boucherat & Co.

At the residence of the bride's parents, 70 Pembroke street, last evening, Mr. John E. Grice was united in marriage to Miss Josephine Vidorja, third daughter of Mr. Isaac Walsh, Rev. Coverdale Watson officiating. The groom was attended by Messrs J. R. Grice and W. B. Brown, the bridesmaids being Miss H. E. Sandwith and Miss Lizzie Walsh, cousin and sister of the bride. The bride was attired in a becoming gown of cream cashmere with broad silk and cream silk lace, the bridesmaids wearing fawn and white. After the ceremony, the guests, to the number of about thirty, partook of a dinner to celebrate the event. The

SITES FOR SCHOOLS.

The Board of Trustees Open and Examine the Various Offers of Land.

Important Matter of Sewer Connection for Central School Grounds—Other Business.

The Victoria School Trustees Board held its regular monthly meeting last evening and spent about two hours and a half discussing sites for schools and transacting a good deal of business.

Chairman C. Hayward presided, other members of the board present being Trustees Lovell, Saunders, Yates, Marchant and Richards. Routine business was quickly disposed of and the communications were then taken up. A number of these were unimportant, being principally requests for supplies and repairs. They were referred to the Supply committee with power to act.

Dr. Pope, Superintendent of Education, wrote, granting the board leave to close the schools on June 23.

Invitations to attend the closing exercises of the High and Public schools were received and acknowledged. In this connection Trustee Marchant hoped as many of the board as possible would attend these closings, so as to show their interest in the work.

A discussion of some length took place over a proposition to buy a \$60 globe from Capt. Clarke, but the board finally decided not to make the purchase on account of shortage of funds.

TRUSTEE LOVELL drew attention to the statement he had seen in the evening newspaper a short time ago, that the schools in Victoria were not supplied with maps of the Province. The reply was that the fact being that the Board had supplied the schools liberally, and there was no foundation for such an erroneous statement.

The principals of the three schools sent a joint letter to the Board suggesting that the written examinations held before the close of each term should not be held until the second week before closing; also, that the last week of the session the pupils should be dismissed and the teachers who that week in their own rooms correcting and marking papers. It was further suggested that the public examinations or "closing exercises" should be held at the opening of the new term rather than at the end of the old one.

It was pointed out that the dates of the examinations were fixed by the Superintendent of Education, and some of the suggestions were not consistent with the School Act. On motion of Trustee Yates, seconded by Trustee Saunders, the secretary was instructed to forward the suggestions to the Superintendent of Education, stating that this was the reply of the teachers to instructions from the board to continue the regular school after the written examinations.

A number of applications for positions on the teaching staff were read and tabled for further consideration. Some amusement was created by the curious grammar and spelling in one or more of the letters. One applicant stated that he had "maid" a previous request and so on, and another used a series of five negatives to emphasize his qualifications.

A number of accounts were referred to the Finance committee for payment if found correct.

The monthly teachers' reports showed daily attendance 1646 99; actual attendance, 1626 29; pupils enrolled, 1,909; average per teacher, 49.

A petition from residents of the Oakland estate, asking for a school in their locality, was read.

TRUSTEE MARCHANT thought a special committee should be appointed to inquire into the matter and report.

On motion, Trustees Lovell and Marchant were appointed a committee to inquire into the petition and report at the next meeting. TRUSTEE SAUNDERS wanted to know why something was not done with the open drain in the Central school yard, and also to have the connection made with the sewers. The attention of the City Council had been called to this, but nothing had been done so far. He thought if the Council was not going to do anything the School Board should have the work done, and charged back to the city. The place at present was dangerous to the health of the children, and must be attended to. He moved that tenders be invited for doing the work.

TRUSTEE RICHARDS seconded the motion, saying that the Council had been asked over and over again to attend to this, and if they would take no action the School Board must.

TRUSTEE YATES thought the School Board would have enough work to do without connecting with the sewers until such times as was necessary.

After some discussion, the motion was amended to read as follows:

"That the City Council be requested to instruct the city engineer to prepare plans and estimates of expenses for connecting the Central school with the sewerage system."

The resolution was then carried unanimously.

TRUSTEE MARCHANT moved, seconded by Trustee Yates, that the Supply committee be allowed to prepare estimates for repairs, whitewashing, etc., to the Spring Ridge, Victoria West and Central schools, the work to be done during the holidays. Carried.

The board then went into committee of the whole, to consider the question of sites. There were 23 offers of land as follows:

The proffered sites were all marked on the maps and generally discussed, the committee reporting progress and asking leave to sit again. The trustees will look into the question more fully and decide at a special meeting to be held later on. The board will meet to-morrow at 2 o'clock for the purpose of looking at the properties offered.

The meeting adjourned at 10:30 until Wednesday evening, June 21.

"About 4 years ago my little girl, Eva, who was then 4 years old, had a scrofula trouble with one of her eyes. For 8 months she had to keep it bandaged from the light. We tried everything the best medical advice would suggest for two years, keeping her out of school all that time, but nothing appeared to do her a particle of good. We feared that she would entirely

lose the sight of the eye. One day I read of a little girl suffering similarly who had been cured by Hood's Sarsaparilla, and decided to let her try it. She seemed better when she had taken the first bottle, so I got another. And when she had finished taking three bottles she was completely cured, and now

NAKUSP

SLOCAN MINES

The Eldorado of British Columbia.

All the ore output now assured to Nakusp by the immediate construction of the NAKUSP & SLOCAN RAILWAY, which will start at Nakusp and end at the Forks of Carpenter Creek, directly in the centre of the Slocan Mines.

No other Route Can Possibly Compete.

Thirty-five miles of Railway from Nakusp will tap the whole of the Mines of the Slocan District, and the ores are bound to come out by THE NATURAL GATEWAY, VIA NAKUSP, to the general welfare and prosperity of the Province.

Look at the Map.

A Provincial Railway Charter and subsidy and a Dominion Railway Charter have been obtained for the Nakusp and Slocan Railway, and the Canadian Pacific Co. have entered into an agreement to lease and operate the Railway for 25 years. There can be no doubt as to the importance of NAKUSP—The Gateway of the Slocan Country, either from the North or South, and the principal shipping and distributing point for all the district tributary to Slocan Lake.

Concentrators and Samplers

now in contemplation, consequent on the definite settlement of the Railway question. The Nakusp & Slocan Railway will be built with a rush right into the heart of the Mines. See Wardner's and other experts' estimates of the production of Slocan Mines in the press. All this now assured is directly tributary to the Nakusp & Slocan Railway.

JAPANESE EXCLUSION.

Fraudulent Naturalization, Asiatic Labor Etc., from the Cannery Standpoint.

The following letter, addressed to the editor, appears in the Westminster Columbian:

Sir,—In reference to the fishermen's agitation now going on, matters are, perhaps, not altogether so one-sided as the public might be led to believe from perusing a report of the meeting held last Saturday night. From it a stranger would gather that the white fishermen have no grievances—they have several; but the fishermen are attacking in the wrong place. First of all, the "Naturalization Act" is neither carried out in the spirit or letter in which it was conceived, not only as concerning Asiatics, but also in connection with many of the white fishermen themselves. There are white men fishing on the Fraser to-day, who came here this spring from the American side, and they have taken out papers as British subjects, being at the same time in possession of papers as American subjects, and have secured fishing licenses, and intend, after the sockeye "run" is over, to return whence they came. The same thing has occurred in previous years. Now, I think one and all are agreed that is a state of things which should be immediately remedied. But are the fishermen petitioning the right party to stop this sort of thing? I should imagine that the "Naturalization Act" is outside the jurisdiction of the Minister of Fisheries. The matter of fish frezers speculating with their licenses, and the question of "dummy" canneries, certainly demand the attention of the Fisheries Department.

Mr. Solmes' speech at Saturday's meeting, I take it, exactly represents the views of all the white fishermen, as he is their chosen secretary and spokesman. Now, throughout the whole of his speech, one does not need to read between the lines to see that it is simply an attack on cannerymen—"the cannerymen got the better of the fishermen," "white men cannot get work inside the canneries, &c., &c."

He says the fishermen do not propose to dictate to anyone; no, but all the same they are very anxious to control the price of salmon. They remember the "big run" of four years ago. These were the times fishermen made lots of money, for salmon were a good price, and came thick. Bearing this in mind, is it any wonder that every Tom, Dick and Harry who could put up twenty dollars has taken out a fishing license. What is the consequence? Simply this, that the supply of salmon this year bids fair to exceed any possible demand, that the canneries cannot take all the fish, and, therefore, some one must be left out in the cold. This is an inevitable law of supply and demand, but sooner or later it must right itself.

Some time since the fishermen wanted the river thrown open to all comers, saying that the canneries had a monopoly of licenses. Well, it was thrown open. What now? They want it protected again, but this time the fishermen want a monopoly. Every man of them feels that he ought to have a license in preference to his neighbor. The cannerymen, with but few exceptions, have always been the fishermen's best friend, supplying him with net, boat, and fishing gear in general, when he could get them from no one else. How many men now owe for this season's spring fishing gear? Let all the canneries "close down" for a couple of years, and to transpire an old nursery rhyme, "what would the fisherman do then, poor thing?"

Now, as to the standing of these "loyal subjects" (?) Most of them are of European origin, Australian, Italian and Swedish nationalities predominating, with a smaller number of Spanish, French, Greeks and Chilians, while a very small proportion are British born. Nearly all are of the "middle class" are naturalized British subjects, and why were they so naturalized? For the very same reason that the Japs are becoming naturalized to-day: that is for the purpose of obtaining a fishing license. Very few of the class of which I am speaking are married men, or, if married their wives and families are in Europe, to whom they regularly remit their surplus earnings, and yet such an outcry is raised against the Japs for doing the same thing. Now, these naturalized foreigners are here for exactly the same purpose as the Asiatics; that is to make money, and then go home again.

Another point put forward by Mr. Solmes was, that Japs and Chinese do not improve the country, but leave it worse than they found it. Now, how does that fit the white fishermen? Can Mr. Solmes put his hand on a dozen of them who have built permanent residence, or tiled any small acreage of land? I think not. They live in saw-houses, sloops or boats of some description, and drift from place to place. How many of them ever pay a Provincial revenue tax, or, for that matter, any other kind of a tax; yet, if they happen to be moored near a school house for a few weeks, and have a child fit to go, that child goes to school.

Now, as to the alleged preference of certain canneries for Jap fishermen, that is a thing not to be wondered at. They probably do sell their fish, as a rule, cheaper than the whites, but in many instances obtain the same price. It is not so much their cheapness that they are valued for, but it is the fact of their being steady, reliable fishermen, and avert in the habit of meditating a "strike" every now and again. When fish are scarce they don't haul out their net and wait, oh no; they fish morning, noon and night. So do the best of the white fishermen, but the majority will haul their nets on the rack and wait till the fish come thicker, and this at a time when the canneries have most need of fish. This is speaking from experience.

A Mr. Crawford, at the meeting referred to, made some rash statements, which may be charitably put down to his ignorance of the subject on which he spoke. He is reported as having said "not one white fisherman had been engaged by the canneries, or had any prospect as to whether he would be employed during the season." Now, Mr. Editor, personally, I know of something like seventy (70) "outside" boats being already engaged for seven canneries, and these boats are each manned by two white fishermen. Further comment is needless.

So far, I have not touched on the Chinese question, but will now do so. The close of Mr. Solmes' speech exhibits plainly the animus of the fishermen against the cannerymen; for he says "they were now petitioning against the Japs, and if they succeeded, would give their attention to the Chinese next."

Exactly so, Mr. Solmes, your "if" is well placed; you mean to say, in effect, we (fishermen) intend you cannerymen shall only employ whom we like, both as fishermen and inside the cannery.

Now, the cannerymen would like to

see Chinese labor dispensed with as much as anyone, but why jump out of the fry-pan into the fire? So many condemn the canneries for employing Chinese, but there has not yet been a single feasible scheme propounded to show the cannerymen a way out of the difficulty. The talk of fishermen's families working in the cannery, to those who know anything about them, is simply absurd. Why, if the whole crowd of families were put together there would not be sufficient labor for a single cannery. What women there are, are wanted to cook for the men, and when a fisherman has a boy big enough to pull an oar, he goes in the boat with his father, and it is no uncommon sight to see two boys in a boat, each pulling one oar.

Taking Mr. Crawford's figures, that each cannery employs 150 Chinese, and there are thirty canneries, this would give a total of 4,500 required to perform the inside work of the canneries this year. Now, tell me where you can get anything like that number of whites, and bear in mind that it is only for a few weeks' work during July and August. This talk of prohibiting Chinese working in canneries is most of it sheer nonsense. In the present condition of the country it is a necessity, there is none other available.

If you do not want the Chinese here, why let them come? But once here no Fisherman's association, or any other association, can prevent their employment. And are the canneries to be dictated to by any irresponsible body? They know their own business best, and have plenty of difficulties to contend with, without unnecessary ones being placed in the way. The canned salmon market has been in a glutted condition for some time now, price of labor (Chinese) is considerably higher than it was a few years ago, material is high, the competition of Alaska and northern canneries is keenly felt, and yet, in face of all this, cannerymen are obtaining lower prices than ever for their output, leaving the prospective margin of profit for this year very small, while many of the packs are not yet sold at all.

The popular theory is, that to own a cannery is to coin money. In a few isolated cases this may have been so, but in general the very reverse has been the case. Salmon canning is essentially a speculative business, so many things may happen over which a canneryman has no control, and, consequently, cannot guard against. Do any of these agitators ever think of the immense sums of money expended by canneries in preparing to receive the fish which may never come? What if this year were a failure? It may be for aught any one knows to the contrary. The effects would be disastrous to the welfare of the country. But, for all that, wages and accounts have to be paid, and you Westminster business men know that there is no trade you are more anxious to secure than that of the canneries, and why? Because there is a big volume of it, and also that the fish is sure and prompt. Therefore, hindrances should not be placed in the way of such important industries as the canneries are, and my advice to any who would condemn the cannerymen for employing Chinese, is, if you have nothing better to offer them in the place of Celestials, keep quiet.

Yours very truly,

Ladner's Landing, June 7th, 1893.

When you feel all tired out and broken up generally, you need a good tonic. Hood's Sarsaparilla is the best. Try it.

For Over Fifty Years.

Mrs. WINDSLOW'S SOOTHING SYRUP has been used for over fifty years by millions of mothers or their children when teething, with perfect success. It soothes the child, softens the bowels, cures colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by Druggists, and every part of the world. Beware of cheap imitations. Do not ask for "Mrs. Windslow's Soothing Syrup," and take no other kind.

Dr. J. COLLIS BROWNE'S CHLORODYNE.

THE ORIGINAL AND ONLY GENUINE

Vice-Chancellor Sir W. Page Wood stated publicly in court that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was literally untrue, and he regretted to say that it had been sworn to. *Times*, July 13, 1891.

DR. J. COLLIS BROWNE'S CHLORODYNE REMEDY IN COUGHS, COLDS, ASTHMA, CONSUMPTION, NEURALGIA, RHEUMATISM, &c.

DR. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31, 1891.

DR. J. COLLIS BROWNE'S CHLORODYNE is prescribed by scores of orthodox practitioners. Of course it would not be thus singularly popular did it not "suffer" from a great want of a place. *Medical Times*, Jan. 12, 1893.

DR. J. COLLIS BROWNE'S CHLORODYNE is a certain cure for Cholera, Dysentery, Diarrhoea, Colic, &c.

CAUTION.—None genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the stamp. Overwhelming medical testimony pronounced each bottle of the Chlorodyne, J. T. DAVENPORT, 33 Great Russell St., London. Sold at 1s. 1d., 3s. 2d., 4s. 6d.

DESTROYED BY FIRE AND AGAIN AT WORK.

The Price Baking Powder Company, of Chicago, which is known throughout the country for the superior excellence of its Baking Powder, met with a serious loss on the morning of May 18th, in the nearly total destruction by fire of its factory and offices. No sooner had the flames been subdued than the work of restoration commenced, and the Company by prudent foresight, having had stored in outside warehouses, duplicate machinery labels and supplies of raw materials in preparation for any emergency was enabled by energetic management to resume manufacturing within a few days after the fire, thereby causing its customers but a trifling delay in the filling of their orders. Had the company not been so prepared the delay would have been very serious since it would have required months of time to get new machinery.

It is now forty years since the goods manufactured by this company were first placed on the market, to Dr. Price being due the distinction of having prepared the first can of Cream of Tartar Baking Powder ever manufactured in any country. It was a great discovery, superseding as it did the old method of using cream of tartar and soda separately, to say nothing of saleratus, with which the biscuit of early days was embittered.

AT THE TRAPS.

Northwestern Sportsmen Hold Their First Day's Shooting Amid Wind and Rain.

Large Attendance and Keen Competition—Ware Wins the Individual Championship.

The first day's shooting in the annual tournament of the Sportsmen's Association of the Northwest came off at the Macaulay Point traps yesterday, and though the weather was not favorable for high scoring, the result of the day's shoot was voted as very satisfactory by the participants in the various events.

There were nearly seventy competitors taking part and the entries were larger than at any previous meeting of the association. Both the Province and the neighboring States were well represented, Portland, Spokane, Tacoma, Seattle, Sumas (Wash.), Whatcom, Nanaimo, Vancouver, Ladner's Landing and Victoria each furnishing its quota.

Everything was well arranged at the traps, Mr. J. McEl Smith, the secretary of the Association, and the other officers being indefatigable in their efforts to make the meeting as pleasant as possible for the visitors. The shooting was conducted on the "rapid firing" system, five traps being used and the competitors firing in squads of six. The large pavilion at the back of the firing point was surrounded at each end by an American flag and the Union Jack, while several smaller tents were also erected on the grounds for the use of the members. The pavilion was needed badly this morning for the protection of the valuable guns of the gentlemen present, which ranged in value from \$50 to \$450, totalling nearly \$10,000 worth of firearms.

It was ten o'clock when the first event came off, in a blinding rain, and the steady downpour continued till nearly noon, when the sun came out and made things brighter, a heavy wind sprang up and continued blowing fierce gusts from the southwest for the remainder of the day, interfering greatly with the scoring.

Ten singles, entrance \$1.50, added \$30.
First prize, thirty per cent.; 2nd prize, twenty-five per cent.; 3rd prize, twenty per cent.; 4th prize, fifteen per cent.; 5th prize, ten per cent.

There were fifty-seven entries in this event. They were: J. F. Warren, W. B. George, T. Short, T. F. Smith, D. H. Adams, Z. Doty, T. A. Bringham, E. H. Mason, E. S. Barlow, J. C. MacLure, W. A. Hardy, N. G. Lison, E. G. White, P. N. Thompson, C. Martin, A. K. Churchill, W. R. Dodge, C. E. Hughes, C. W. Minor, S. M. Bell, A. L. Alkie, W. A. Eberly, J. C. Nathas, W. J. Leary, F. S. MacLure, J. Hardy, W. Conser, Oregon, E. E. Ellis, C. Allen, H. A. Munn, O. Weiler, T. B. Ware, C. Toff, T. F. Clarke, D. A. Kinzie, S. B. Van Zandt, K. C. Stevens, E. A. Kinwall, J. J. Evans, T. C. Smith, B. L. Williams, B. H. John, E. Gregg, W. White, J. W. Switzer, D. Casper, W. H. Adams, H. T. Denham, W. G. Henly, W. Bickford, W. Grigg, F. H. Hewlings, J. C. Inks, P. N. Thompson, S. W. Edwards, E. Wall.

In this event, as in all the others, the distance was 16 yards for 12 bores and 18 yards for 10 bores, but it was noticed that very few fired with the latter, the 12 bores being the favorite. Though the rain was coming down steadily there was no wind, and consequently the scores were made under fairly favorable conditions, over a third of the men making an average of 80 per cent. while several made 90 per cent. and over. Those who headed the list were: J. T. Warren, Spokane, 90 per cent.; Short, Victoria, 88 per cent.; W. A. Eberly, Tacoma, 87 per cent.; O. Weiler, Victoria, 86 per cent. making the full score of 10 birds.

Fifteen Singles, entrance \$2.50, added \$50.
First prize, 30 per cent.; 2nd prize, 25 per cent.; 3rd prize, 20 per cent.; 4th prize, 15 per cent.; 5th prize, 10 per cent.

There were the same number of entries in this as in the preceding event. It started before 1 o'clock, the rain having ceased and there being little wind. The match was remarkably well contested, the averages being especially good. Weiler, of Victoria, at the end of the event led in the average with the possible of 25 birds in the two events. Denham, of Tacoma, scored his 15 birds in this event. Minor missed his second to last shot by firing at a broken bird.

Individual championship, 20 singles, entrance \$3.50.—First prize, gold badge, value \$250, presented by the Multnomah Rod and Gun Club, Portland.—Conditions: Winner holds it for one year. Second prize, 15 per cent. Third prize, 10 per cent. The present holder of the badge receiving 75 per cent.

This excited the greatest interest of the day, there being 45 entries. T. B. Ware, of Tacoma, was the lucky winner, being the only one to make the full score of 20 birds. It is, perhaps, only fair to say that those who shot after the first squad were through had to contend against a strong wind that rose almost immediately afterwards. Following are the scores above 10:

The low scores made by some were due to the wind, which brought down the scores of many of the crack shots. The rain also seemed to have a bad effect on the traps which frequently would not throw the birds properly. The seventy-five per cent money amounting to \$82 goes to Mr. Eberly of Tacoma, who won the medal last year.

EVENT NO. 4.
10 Singles, entrance \$1.50, added \$10.00. First prize, 30 per cent; 2nd prize, 25 per cent; 3rd prize, 20 per cent; 4th prize, 15 per cent; 5th prize, 10 per cent.

It was late in the afternoon before this contest began, the number of contestants lengthening out the time, although the different squads took their places promptly and everything went like clockwork. The wind still kept blowing in gusts that affected the shooting considerably, and the very creditable scores made spoke wonders for the skill of the sportsmen. No less than 57 gentlemen entered in this event. The winners were E. E. Ellis, of Tacoma, and J. C. MacLure, of Victoria, ten birds each—the full score. D. L. Williams, C. E. Hughes, W. White, H. T. Denham, J. J. Evans, N. G. Sisson, T. B. Ware, E. S. Barlow, W. R. Dodge, J. Hardy, A. R. Churchill, A. Kinzel and W. A. Eberly tied for second place, with 9 birds each, while quite a number of gentlemen made a score of 8 birds.

EVENT NO. 5.
(Teams of Two.)
10 Singles, entrance \$6 per team, added \$50. 1st prize, 50 per cent; 2nd prize, 30 per cent; 3rd prize, 20 per cent.

The sun had gone down and it was after 7 o'clock when the first squad began shooting, so that the teams had both the disadvantage of wind and a changing light to contend against. It was, however, a close and exciting match and was of much interest. Messrs. Eberly and Barlow, of Tacoma, captured first place with a score of 19 birds. Following are the scores:

This closed the day's proceedings, the last shot not being fired till nearly 8 o'clock.

This morning's shooting begins at 9 o'clock, the first event being the Globe trophy shoot—live birds—which will come off about eleven o'clock.

A meeting will be held this evening when it is expected that the election of officers will take place and that the place of next year's meeting will be arranged, Tacoma being likely to be the choice of the association. It is probable that Wm. Wm. will send a team to shoot in the "Club Team Contest" on the fourth day of the meet.

LARDEAU

NORTHEAST ARM OF ARROW LAKE.

STATEMENTS having been made by parties who are opposed to the building of a town at LARDEAU CITY, on Arrow Lake, to the effect that the SITE was subject to overflow, and also that Navigation to that Point was impossible, it becomes necessary to contradict the same. Both statements are without foundation. The notes of the Engineer who surveyed the TOWNSITE can be seen at the office of the Trustee, or any of the Agents, in regard to every Block. The Resident Agent was instructed to take soundings, and his report can also be seen at the Trustee's Office. At the present time there are eight feet at the highest point on Fish Creek, where lots have been surveyed; and the fact that the steamer Kootenay, of the K. & C. Navigation Co., with a large freight and passenger list, called at Lardeau on June 1st, is good evidence of the depth of water, and the falsity of the reports. At the Lowest Water there is ample depth at the Southwestern End of the Townsite for the safe Navigation of the largest steamers now running on the Columbia River. The fact that a number of business men have erected large buildings, and have made considerable investments in Lardeau realty is strong evidence, that the Site is all that has been claimed for it. A glance at the map of Kootenay District will show also that it is the Natural Distributing Centre for the Lardeau Mines, near Trout Lake and Lardeau City, and for the rich Fish Creek District.

Any other information required by intending investors will be cheerfully furnished on application, by mail or personally, to the undersigned.
